 Alternate dates:

Program request

All programs will introduce the audience to the field of wildlife rehabilitation, in addition to what Greenwood does. Please mark any other categories of information that are a priority for your group.

Is there a special reason that your group is requesting a program from Greenwood?
 (Such as for a merit badge, teaching unit, etc.)

What do you hope your group gets out of the program?

Are you interested in activity options, or would you prefer simply an interactive presentation?

Artifacts

The animals admitted to Greenwood are patients and must remain wild to be released. It is for this reason that we cannot bring live animals to the presentation. Greenwood has a federal license to keep animal artifacts for educational display. Although artifacts can be fascinating, younger audiences might not feel comfortable handling or seeing animal parts. We ask that the group leader decide what is appropriate for their program.

- Would you like us to bring artifacts that are shed and can grow back on animals (such as snake skin, feathers, etc)? YES NO
- Would you like us to bring preserved body parts (feet, wings, tail mounts, etc)? YES NO

Location

Please note: Greenwood does not currently have a facility for on-site education. We can visit groups anywhere in Boulder County. In some cases, it might be possible to visit other counties.

Will we have access to: (mark boxes with an X to indicate yes)

<input type="checkbox"/>	Electrical outlets
<input type="checkbox"/>	Television
<input type="checkbox"/>	VCR
<input type="checkbox"/>	DVD player
<input type="checkbox"/>	Projection screen/ flat white wall
<input type="checkbox"/>	Projector (to hook up to a laptop)
<input type="checkbox"/>	Microphone (only necessary for large audiences.)
<input type="checkbox"/>	Table (s)

(These items are not necessarily needed, but knowing what we have access to will help us plan the best possible program for your group)

Other concerns, comments, requests?

Thank you for your interest in Greenwood Wildlife Rehabilitation Center.
Our education coordinator will contact you soon!

***Mission:** Greenwood's mission is to rehabilitate sick, injured and orphaned wildlife for release into appropriate habitats. Greenwood also strives to educate the public, emphasizing humane solutions to human/wildlife interactions.*
