

Greenwood Wildlife Rehabilitation Center

Annual Report for 2018

*When you feel the suffering of every living thing in your own heart, that is consciousness' — BHAGAVAD GITA*

## Our Mission

*Greenwood's mission is to rehabilitate sick, injured, and orphaned wildlife for release into appropriate habitats. Greenwood also strives to educate the public, emphasizing humane solutions to human/wildlife interactions.*

## History of Greenwood

In 1982, the Humane Society of Boulder Valley (HSBV) founded a wildlife rehabilitation center at their facility. One year later, the family and friends of Natalie Gneiser — a young woman who was killed while trying to rescue an injured dog on the highway — donated memorial funds to this cause, allowing the center to expand to help more patients.

During the next 14 years, the number of animals brought to the Center for care increased 20 - 30% each year. Meanwhile, the City of Boulder grew around HSBV, and it became increasingly difficult to provide a quiet and secure environment for recuperating animals.

In March 1993, the Center incorporated due to its continuous growth and was named Greenwood Wildlife Rehabilitation Sanctuary (officially renamed "Center" in 2008). Greenwood was the name of the Center's first rehabilitated raccoon, which had been burned in a chimney fire. At the time, Greenwood was operating out of a veterinarian's office in north Longmont.

In 1997, Greenwood secured a lease from Boulder County for property on Highway 66 between Longmont and Lyons. For the next 10 years, it operated out of two modular units on this site. Caging was built for raccoons, songbirds, squirrels, rabbits, coyotes, and foxes.

In 2006, Greenwood began to address the need for a badly needed new facility, which had been a dream for many years. In 2007, the Center received a contribution to purchase the previously leased property as well as an additional 1.5 acres. Another large contribution provided funds to help build a new, state-of-the-art facility, with donations coming from many other donors.

Greenwood moved into the new building in early 2009. This great step forward was a testament to the commitment of Greenwood's supporters and the broader community to provide the best care possible for orphaned and injured wildlife.

Fundraising efforts and the annual budget continued to increase with the addition of a Thrift Shop in 2004 and an annual major event, *Wild Night for Wildlife*, in 2009. In 2012, Greenwood relocated the Thrift Shop and expanded its retail efforts to include a Consignment Gallery, the only nonprofit store of its kind in Boulder County. Education and outreach programs, the other important component of the Greenwood mission, continue to grow.

Since its inception, nearly 200 species have been rehabilitated at Greenwood. With only a small year-round staff, the majority of personnel needed to operate the Center are the more than 500 volunteers, interns, and seasonal employees who work diligently from March through October caring for up to 500 animals per day. Greenwood currently has 16 rehabilitators licensed by the Colorado Division of Parks and Wildlife, and our success rate remains high. As the only facility providing care for a wide variety of species from north of Pueblo to the Wyoming border, Greenwood provides leadership to the wildlife rehabilitation community throughout Colorado and the nation.

## From the Board President

### Dear Supporters,

As I reflect on another year of leading the Board of this incredible organization, I realize we have a group of dedicated staff and volunteers who seamlessly treat species such as the rare Black-billed Cuckoo and Western Harvest Mouse and then turn right around to care just as deeply for raccoons, squirrels, and finches! This is what Greenwood is all about.

Our successful track record continued in 2018. As the only large rehabilitation center providing these services to small mammals, birds, and waterfowl along the Front Range, we feel the stress of taking care of a record number of animals. This year we treated over 3,600 animals. It is no surprise to anyone that this area of Colorado is still growing and, with that growth, the animals that we serve are constantly feeling the pressure on their habitats. Another critical component of our success is our Education and Outreach Program, where we enlightened more than 7,000 participants at 116 events. These efforts are vital to ensuring we meet our mission of educating as many community members as possible on how to live peacefully with nature.

Staff and volunteers! Greenwood has increased our staff to provide the best care and fundraising opportunities for the organization. We are fortunate to have nine year-round staff and 27 seasonal staff at our center, 12 year-round staff members at our stores, and 16 licensed rehabilitators. I cannot express strongly enough how important these individuals are to our success. They all have the passion and vision to lead us forward and maintain our success. You would be correct if you are thinking, "How the heck can that small but mighty staff keep things running?" Our volunteers and interns make it work! Including our dedicated Board, 522 volunteers contributed more than 18,000 hours this past year. Also 61 interns dedicated an amazing 10,318 hours! We are always looking to build our volunteer network.

Financially speaking, we persist in maintaining a strong balance sheet and income statement. This position allows us to serve the current animal populations and to look at expanding the number of animals that we are able to care for. We appreciate each and every one of you who has contributed to this success. A great example is the record-breaking donations from the annual Colorado Gives Day, with over \$47,000 of contributions. This wonderful news was surpassed only by the success of our annual fundraiser, *Wild Night for Wildlife*. Don't forget to mark your calendars for Friday, September 20, 2019. Join us for a fun evening of drinks, dinner, games, and the ever-popular silent and live auctions.

We are looking strategically to the future to ensure that we can care for as many animals as possible. What does that mean for you? We will need your financial and volunteer support as we determine what will best benefit the animals in the area. Please engage with us through our social media channels and newsletters to explore new ways to get involved, see amazing videos of heart-warming releases, and more.

I continue to be honored to serve this organization. Thank you again for all your support this past year and for years to come!

Sincerely,

Kathy Lockhart  
Board President

*"The greatness of a nation and its moral progress can be judged by the way its animals are treated." — MAHATMA GANDHI*

## Volunteer, Internship, and Education/Outreach Summary

Greenwood cared for 3,620 animals in 2018, and we couldn't have done it without the thousands of hours provided by hundreds of dedicated volunteers. Overall, 583 volunteers and interns donated 28,339 hours in animal care, education and outreach, Thrift Shop & Consignment Gallery assistance, fundraising, and more. The majority of their time was spent caring for orphaned mammals, songbirds, and waterfowl/shorebirds between the months of March and October, our busy baby season.

We continued to refine and enhance our internship program, providing hands-on instruction to 61 interns who spent a total of 10,318 hours getting hands-on experience caring for orphaned and injured wildlife. Greenwood's training exposes interns from all backgrounds to an emerging discipline within the wildlife and environmental conservation fields. They learn first-hand about the challenges facing our local wildlife. They also learn to become good stewards for all the creatures that are an important part of our shared ecosystem.

Greenwood's Education and Outreach Program strives for a similar goal — teaching people to live humanely with their local wildlife. These efforts reached a total of 7,425 adults and children in 2018 throughout Boulder County and beyond. Venues included the Nature Kids Lafayette (NKJN) in-school program, public and private school classrooms, libraries, scout meetings, volunteer and career fairs, environment-related events, and more. In addition, our Animal Care Liaisons at the front desk field thousands of calls per year, sometimes up to 100 each day, helping the public with human/wildlife issues.

*Northern Shoveler*

## Thrift Shop & Consignment Gallery

### Consignment Gallery

While Greenwood Consignment has always been known for our amazing and unique furniture, we've also become the "go-to" consignment store in Boulder County and beyond for area rugs, jewelry, and framed art.

New consignors have chosen Greenwood Consignment to sell their beautiful antique Persian rugs. Our framed art inventory continues to grow and customers view our collection as if visiting a museum.

In November, we received a beautiful new jewelry case. The additional display space makes our collection even more tempting. We consistently surprise everyone with our furniture, décor, and jewelry.

### Thrift Shop

The Thrift Shop continues to see the number of donations grow, keeping our staff on their toes to price and display inventory. Customers from all walks of life enjoy the Shop. We stock our books, décor, housewares, art, jewelry, clothing, and accessories each day to cater to the needs and imagination of our regular customers.

What makes us happy? This comment from our customers: "I love visiting your stores because I never know what I'm going to find, and I'm never disappointed!" Our customers also follow us through our weekly and monthly emails as well as on Facebook and Instagram.
